

**360 Feedback analysis
for
Prof Edward Davis
Trauma and Orthopaedics
2018/07/10**

Prof Edward Davis

How to analyse your report

In most instances scores are very high. However, no quick assumptions or conclusions should be drawn from low scores until reasons have been explored. Below is a list of possible reasons for low scores. These have been provided for discussion and reflection. There may well be many other reasons for low scores not included in this list, but many of the more common reasons have been included.

Possible Reasons for Low Scores.

These are listed with no particular weighting: -

- Workload
- Technical support
- Team/Trust failure
- Suitability of selected raters
- Staff shortages
- Specialty
- Personality clashes
- Personal problems / illness
- Patient case load
- Lack of training
- Lack of skills/knowledge
- Lack of information
- Lack of feedback
- Lack of awareness
- Keeping up to date
- Job structure/job role
- Honesty
- Equipment availability/failure
- Cultural issues
- Confidence
- Communication skills
- Awareness of own limitations
- Attitude
- Other (investigate)

Facilitator Feedback Notes

Feeding back the contents of the 360 report to your colleague

Introduce the feedback session and describe your role as a facilitator to encourage reflection and personal development planning. If appropriate, consider setting some ground rules, such as confidentiality.

Seek your 360 doctor's views first - Ask questions rather than make statements.

If your 360 doctor has low scores in a particular area, do not make assumptions. There are many reasons for low scores some of which are detailed on the previous page. Low scores may be a result of workload or staff shortages. Of course, low scores may also be due to personal competence.

If there are clusters of raters scoring below average/unacceptable, the Medical Director should be informed.

Seek 360 doctors views first: -

- What went well and why?
- What didn't go so well? and why?
- What changes would you like to see in the future?
- How will these changes be implemented?
- What will happen to reassess / monitor improvements?

Concentrate on specific areas which cause most concern e.g. high variance between self and colleagues assessments. Then focus on specific items of behaviour.

Compliment on the areas where the individual scored highly as well as address areas for improvement. Encourage the individual to build on their strengths. The graphic quantitative feedback report allows you to discuss current, sensitive issues in a direct manner. The feedback interview should be held in private, avoiding interruptions.

Stick to the facts and always avoid becoming emotional or using emotional language. For example, if a doctors has a low score in communication skills you might say 'you have scored below average to unacceptable in the communication skills element please comment on that?' instead of "you didn't do very well in communication skills did you?"

If you are looking for additional training then 360 Clinical can help. For further information please visit www.360clinical.com or contact us on telephone +44 0845 180 1405 or email info@equiniti360clinical.com

Questionnaire

The following questionnaire was distributed to peers

Page 1

1. Clinical Assessment: Diagnostic skill; performance of practical/technical procedures
2. Patient Management: Management of complex clinical problems; appropriate use of resources
3. Reliability: Conscientious and reliable; available for advice and help when needed; time management
4. Professional Development: Commitment to improving quality of service; keeps up-to-date with knowledge and skills
5. Teaching and Training: Contributes to the education and supervision of students and junior colleagues
6. Verbal Communication: Spoken English; communication with colleagues, patients, families and carers
7. Empathy and Respect: Is polite, considerate and respectful to patients and colleagues of all levels; compassion and empathy towards patients and their relatives
8. Team Player: Values the skills and contributions of multi-disciplinary team members
9. Leadership: Takes the leadership role when circumstances require; Delegates appropriately
10. Do you have any concerns about the Probity or Health (physical or mental) of this doctor?

The question numbers correspond to the key on any graph

Comments

Self assessment comments

"Still struggle to trust SpR during surgery and let them take full responsibility. Have not been as proactive at arranging courses to maintain CPD as I could be. With busy clinics I think I have reduced the time I spend with each patient over the years."

Comments added by rater

"Professor Davis is a considerate clinician who is very patient focussed and is a pleasure to work with"

"I have known Professor Davis for approximately 15 years and have been his Medical Secretary for 5 years. He has always been very dedicated to his work and involved in teaching and training and up-do-date with current procedures and processes. He is always available for patient queries and helps to make my job easy."

"Professor Davis is a very committed individual who cares for the who team and his Patients."

"Professor Davis is outstanding in his working practices. I have no clinical involvement but I do have a lot of contact with his patients and they are all extremely satisfied with the service that he provides to them. He is very approachable for patients and colleagues, very courteous and always makes time for contact, again with both patients and colleagues in the workplace. He is very supportive of Registrars who are keen to progress and highly thought of throughout."

"Technically excellent surgeon and significant involvement in modernising practice."

"Excellent communication skills and great attention to detail. He has a busy and complex clinical practice but always makes time for training. He has gained the respect of the clinical teams in all clinical areas. Works hard and cares for the wellbeing of his colleagues . Exceptional overall."

"Mr Davies is the thinking man or woman's orthopaedic surgeon. He exhibits very considerable commitment to improving surgical techniques by his work on computer navigation and robotics and this is reflected in excellent outcomes. He has also done tremendous work in undergraduate teaching."

Comments added by patients

"PROFESSOR DAVIES IS AN EXCELLENT AMBASSADOR FOR ORTHOPAEDIC SURGERY. I FELT CONFIDENT WITH HIS CARE EVERY STEP OF THE WAY."

"Professor Davis is a one off. A side from his notority in his field. He shows consistant enormous compassion and empathy for his patients. He has a quality that is indefinable and breaks the preconceptions of the surgeon."

"I have nothing but positive feed about Mr Davis. He has been my consultant on and off for over 8 years and I have always felt I was in safe hands."

"All good!"

"Brilliant, helpful. Thank you."

"Looking at the boxes I have ticked - Professor Davis was most considerat and more than helpful. Would definitely ask for him

Prof Edward Davis

again. Thankyou."

"EXTREMELY GOOD VERY FAIR AND HONEST IN PROGNOSIS. HELPFUL IN UNDERSTANDING MY MEDICAL PROBLEM."

"Explained everything well. Gives me confidence."

"PROF DAVIS HAS AN ABSOLUTELY WONDERFUL BEDSIDE MANNER. HIS CALM & CARING ATTITUDE INSTILLED CONFIDENCE IN ME. I WAS VERY DISPONDENT WITH MY FIRST HIP OPERATION & THE PROF WAS RECOMMENDED TO ME 6 WEEKS POST SURGERY I AM PAIN FREE, HAVING HAD THE LEG DIFFERENTIAL RECTIFIED BY A 2ND HIP OPERATION PERFORMED BY PROF DAVIS. THANKYOU FOR GIVING ME MY CONFIDENCE & LIFE BACK. MANY THANKS."

"I am very happy with outcome of my surgery and the care I have received."

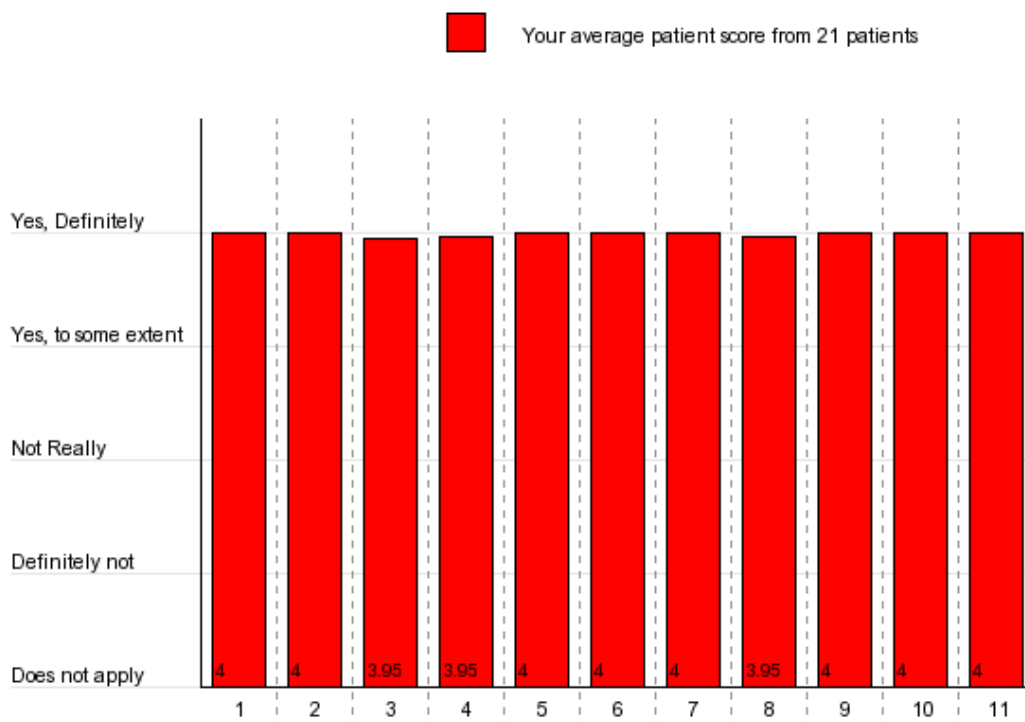

"Mr Davis is so reassuring & has made what could have been a very difficult process feel very smooth & easy. There really is nothing he could do better I feel he is thoroughly professional, knowledgeable & kind with excellent communication skills."

"This man was supremely helpful, clear with all of his comments regarding my condition, any future benefits that may be possible due to circumstances both existing and future likelihood that may develop. His help cannot be overstressed for my understanding made clear by his words."

Summary of patient results

Average score given for the questions below

Questions

1. Was the doctor polite and considerate?
2. Did the doctor listen to what you had to say?
3. Did the doctor give you enough opportunity to ask questions?
4. Did the doctor answer all your questions?
5. Did the doctor explain things in a way you could understand?
6. Are you involved as much as you want to be in the decisions about your care and treatment?
7. Did you have confidence in the doctor?
8. Did the doctor respect your views?
9. If the doctor examined you, did he or she ask your permission?
10. If the doctor examined you, did he or she respect your privacy and dignity?
11. By the end of the consultation did you feel better able to understand and/or manage your condition and your care?
